Deficiency in temperature yesterday 1 degree.
Deficiency in temperature since first of month, 40 degrees.
Accumulated excess in temperature since January 1, 164 degrees.
Deficiency in rainfall yesterday, 0.91 inch.
Excess in rainfall since first of month, 5.43 inches.
Accumulated excess in rainfall since January 1, 4.97 inches.
L. N. JESUNOFSKY,
Section Director.

OF LOCAL INTEREST

A PICKUP—A pocketbook belonging to Dr. L. D. Sutherland is in the possession of the police, having been picked up on the street.

BACK FROM VACATION—Miss Lowdermilk, stenographer in the office of the surveyor general, has returned from a vacation at the home of her parents in Wilcox.

EMERGENCY HOSPITAL—The municipal hospital, alias the police office, yesterday picked up Frank Clifford from the streets, sick, and also gave attention to J. E. McCain for the same reason. The latter came to the headquarters and applied for assistance.

PAROLED—Duke Allen, a boy sent to the industrial school from Globe last December, was granted a parole yesterday on condition that his parents would take him back to their former home in Tennessee and keep him outside the territory.

ACCEPTED THE BRIDGE—Auditor General Mack returned yesterday from Florence, where, on the Fourth, he made an address formally accepting the Florence bridge for the governor and board of control. The celebration of the national holiday was made the occasion for the dedication of the bridge.

TO RESTORE CITIZENSHIP—A pardon has been granted C. P. Silvernail to restore his citizenship. Silvernail having served a term in the penitentiary from which he was released two years ago. He was convicted in Williams of sending improper matter through the mails.

SANITARY BOARD IN SESSION—The quarterly meeting of the live stock sanitary board began yesterday, most of the business of the day being of a routine nature. W. H. Cox of Jerome the new member, filed his bond and qualified for his office. The board will probably be in session the greater part of the week.

A BRANDED DOG—Mrs. H. G. Parry of North First street, yesterday applied to police headquarters for help in finding a pet fox terrier. The most distinguishing portion of her description of it was that it was branded S. P. on one thigh. Marshal Moore could not at first believe his senses when he heard the word "branded" in that connection, but as the lady would have no other word substituted, he finally concluded that she must know what she was talking about and put it down on the record book that way, assuring the reporters that the range of his experience had taken in almost everything raised in this county but he had never before heard of a branded dog.

ANXIOUS—Joe Pannello of Stege, Illinois, should write to his father, if he can. His father is anxious because he don't, says a letter from him to the Phoenix police.

A SON—Mr. and Mrs. Howard Erb are rejoicing over the arrival of their home Sunday morning, of a fine son, weighing ten pounds. Mother and son are doing nicely.

THE WICKENBURG CONTEST—The county board of equalization, yesterday morning sat as a board of supervisors long enough to hear arguments for and against the proposition to disincorporate the town of Wickenburg. The town is about equally divided on the question. Captain Alexander appeared for the proponents of disincorporation and Judge Baker for the antagonists. The board took the matter under advisement.

RAILROADERS—Walter Hale of 1101 West Madison street, and Robert Graham of 146 South Sixth avenue, it appears, are likely to join the Santa Fe railroad force. They are both bright boys, and so anxious are they to get into the employ of that line of railroad service that they broke into it yesterday afternoon, by the way of one of the east windows. As the result, they arranged with General Agent Goldsworthy to enter it immediately, though they will also retain their other employment for some time yet.

FLAGSTAFF-CANYON ROAD—Geo. Mauk, territorial auditor, and Robert Craig, citizen member of the board of control, left last night for Flagstaff, expecting to be joined in Prescott by J. B. Girard, territorial engineer. Governor Sloan will return from Bisbee this morning where he delivered an address on the Fourth, and leave at once for Flagstaff where he will address the Arizona Wool Growers association. While there he will confer with the other members of the board of control and the supervisors of Coconino county, in the matter of surveying the proposed extension of the "territorial road from Flagstaff to the Grand Canyon. It is understood that if the territory will run the lines the county will shortly begin the work of constructing the road.

VISITED FLORENCE—Among the Phoenix people who spent the fourth in Florence and witnessed the dedication of the bridge over the Gila river, were W. S. Norvell, private secretary to Governor Sloan and J. O. Dunbar, editor of the Democrat.

SAME OLD ANSWER—The Republican asked the question the other day, "where do the frogs and toads stay during dry weather?" Some one under the name de plume of A. Tond has submitted an answer, rather lengthy, and hardly worth publishing for in substance it is the same old encyclopedia story that they live in damp places under culverts, etc. It won't do in this country where there are no such places only once a year.

NEW SEED HOUSE—The Arizona Seed Co. is a new business concern that has fitted up convenient quarters at 127 North Central avenue, next door to the postoffice building. It is now ready for business and the announcement is made that a general supply of the choicest seed of all kinds for which there is a market in this valley, will be carried in stock. The president of the company is William S. Humbert, who came here a few years ago and bought the old John Orme ranch west of the city, which he is operating very successfully. The manager of the store is Marshall Humphrey, an experienced seedman and who has also had some ranch experience in this valley. They believe they know the needs of the local farmers and will do their utmost to supply them.

DITCHED THE AUTOMOBILE—Mr. and Mrs. Victor Redewill returned home Sunday from Flagstaff by rail, from their honeymoon automobile trip via Roosevelt, through the White mountains. They report having had a glorious time but left the buzz wagon hung up in the mud forty miles from Flagstaff, and finished by wagon and train. The automobile will be brought into Flagstaff as soon as the mud dries. They traveled the last end of the journey into Flagstaff through a heavy rain. Mr. and Mrs. Redewill will leave the last of the week for California to finish up their honeymoon. They will return via the northern route, pick up the machine and bring it back to Phoenix, as the roads by that time will doubtless be in good condition.

FIX THE CESSPOOLS—Dr. William H. Sargent, the city health officer, requests every householder to take a good look at his cesspool and see that everything is all right. If it is not, in the interest of himself and the general public he should have it repaired at once. The heavy rain of last Saturday and Sunday resulted in the caving in of many cesspools and vaults, and in many instances the disconnecting of the pipes leading thereto. These should be repaired at once for in the hot weather now on it will take but a few days for a generally unsanitary condition to arise. The chance of prevention is much cheaper than the later cure and a disabled cesspool or vault is not only a menace to the public health but is a nuisance as well. It is hoped householders will take the initiative in correcting the situation without waiting to be bothered by the health officer.

A COSTLY CALL—In the recorder's court yesterday, Russell Jones, a regular employee of Boehmer's drug store, aged about twenty-two, was found guilty of exceeding the municipal speed limit for auto cycles in delivering medicines on a hurrying call, and was fined \$15, although it was represented to the judge by Mr. Boehmer that Jones was of excellent character, had been in his employ for four years, and had never had any cycle accidents nor been in any kind of trouble during the time of his employment, so far as the employer knew. The young man pleaded guilty. The arrest was made by Cycle Policeman Heimer. The opinion has been expressed that the judge might have made the fine more nominal or suspended sentence; but on account of the determined effort now being made to enforce the speed ordinance, apparently supported pretty generally by public sentiment, he could not see his way to impose less than the minimum, inclining to the opinion that it is the duty of the legislative body of the city to make modification in the ordinance if necessary.

GONE TO COAST—Col. J. H. McClintock left last night for a few weeks' outing in California. He will spend a few days in Los Angeles, then go on to San Francisco.

SPARRING WITH A JONAH—Manager Mullen of the Wigwam theater says he has been engaged for the past week in a hand to hand combat with a Jonah of some sort but he thinks he has bested his adversary and is now ready to meet the public again with a smiling face. Last week the rain ruined a gross of reserved seat chairs for him. As the roof of his place is the blue vault of heaven he also had to close the house during the rainy nights. Then came the spilling of the picture films which he had hoped to present last night necessitating another close. But he has come to the turn in the lane. He has now secured some new films with which he will reopen the Wigwam tonight. But that isn't all of it. He also has a new singer in the person of Miss Ester Bagshaw who is expected to add much to the gaiety of the new program. To replace the ruined chairs Mr. Mullen has secured cushions for his reserved seats and assures that who comes tonight that there will be no disappointment.

AMUSEMENTS

A NEW NOVELTY AT THE COLISEUM.

Ted management of this up-to-date vaudeville house is always looking out for the latest novelties, and as the leader of the Coliseum orchestra was going east a few weeks ago, Manager Reeves asked Mr. Redewill to keep his eyes open for any new novelties, and in case he found anything in the way of a musical novelty to buy it for his house, as his motto is always, "There is nothing too good for the people of Phoenix," the result being that before Mr. Redewill's return he bought a set of Deagan's Chimes, which consists of twenty-five bells or chimes. These chimes or bells arrived yesterday, and a number of electricians have been quite busy engaged in installing them in different parts of the theater, and they will be played by electric wires operated from the orchestra pit tonight for the first time. These chimes promise to be a decided novelty, being the first theater in the southwest to have them, which is another case of where Phoenix leads.

THE SAVOY.
"The Sinking of the Battleship Texas" will be the feature in tonight's program at the Savoy, one of the best moving pictures ever shown in Phoenix. All are interested in our navy. The picture shows this monster battleship as it stood before the accident, also showing all the principal details and the incidents which caused the wreck of one of the greatest ships of our navy. The regular program will follow this big feature. Illustrated songs will be rendered by Esabelle Stonehouse. The Curtiss orchestra will offer a special program of music.

POSTAL SAVINGS BONDS.

A Demand for Them for Investment.

Washington, D. C., July 5.—Postmaster General Hitchcock announced today that all applications from depositors to purchase postal savings bank bonds on July 1 aggregated \$42,000. Of these more than \$35,000 were applied for in registered form, indicating the intention of depositors to retain the bonds as an investment.

BAY STATE TREMBLED.

Springfield, Mass., July 5.—One of the most terrific thunder storms seen in many years visited a portion of the Connecticut valley today. Lightning, rain, hail and wind did much damage in many cities.

NEW YORK STATE RECORD.

Auburn, N. Y., July 5.—A temperature that reached 116 here today caused three deaths.

COLUMBUS' CONTRIBUTION.

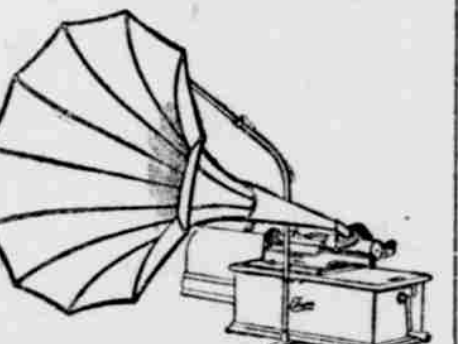

Columbus, O., July 5.—Two deaths, several prostrations and one person driven insane was the local heat record today.

THREE DEATHS AT BALTIMORE.

Baltimore, Md., July 5.—Three deaths from the heat and thirty-six prostrations were recorded today. The temperature was 97 degrees.

RUSSIAN MUSICAL TREND.

One can hardly judge of the state of music in a country by the prevailing taste of the public. The fact that Russia's most popular composers are ultraconservative does not imply that Russia's musical art tends toward conservatism only.—New Music Review.

WHERE WOMEN HIDE JEWELS.

Trunks, Mattresses and Foot Post of Bed Some of the Places.

Not one-fifth the jewels owned by Chicago people are kept in safety deposit vaults, as might be expected, declared an officer of one of the best known Chicago safety deposit vaults. In fact, even the persons who do rent boxes at the vaults seldom keep many of their valuable jewels there. "I know one woman who keeps her husband's life insurance policy in the vault and pays an annual rental for the box, while she keeps jewels valued at thousands of dollars in her own home. It's a mystery to me why more persons are not robbed of their valuables."

"There is a woman of my acquaintance who keeps jewelry valued at close to \$15,000 in an old trunk in her room. There is not even a lock on the trunk; for she was obliged to force this off one time when she had mislaid the key. It has not even the quality of escaping notice by its wretched appearance or obviousness."

"Were it left alone it might possibly escape search by an enterprising burglar because of its prominence, but the woman has withdrawn even this hope by binding the thing up with straps and ropes tied in the most complicated knots. She does not stop to think that an enterprising second story man could cut through those ropes in half a minute if he had a sharp knife."

"Another woman conceals her jewelry bag in the mattress of her bed. Old as this place is, the woman fur-

ther invites robbery by neglecting to sew up the hole in the cover; or, if she does do so, merely bastes it up with thread that a burglar would notice twenty feet away. Another favorite place is in some "secret drawer." Usually in bureau or dresser drawers there are a number of long drawers with a couple of smaller ones at the top. Between these two small drawers some enterprising furniture maker hit upon the plan of placing a concealed drawer. This was all right twenty years ago, but don't you suppose burglars keep track of these things?

"A woman of my acquaintance has the foot post of her bed hollowed out and places her jewelry here. This is not so easy to find as it might seem, for the head of the post is solid and even if a burglar happened to think of removing that he finds nothing, for the woman has taken the precaution to have a false top put on the post, and to get to the hollow part it is necessary to unscrew the part under the removable head."—Chicago Daily News.

GOAT GIRL.

A Norwegian goat girl is able to take care of a large flock of goats. She watches them while they graze, milks them and salts them. The last task is interesting. She takes a little bag of salt and the goats crowd about her, leaping over each other's backs, for the privilege of licking her hand after each dip in the bag. She loves her goats and makes pets of the young kids.—Exchange.

BERRY MUFFINS.

One cup of sugar, two eggs, a little salt, one cup of milk, butter the size of an egg, two cups of flour, two teaspoons of baking powder and two cups of blueberries. Take half of the sugar and sprinkle over the berries, after they have been washed and thoroughly drained. Cream the remaining half cup of sugar with the butter and yolks of eggs. Add the milk and flour into which the baking powder has been sifted, then the whites of the eggs and last the berries. Bake in gem pans about 30 minutes. Should be served while warm.—Choice Recipes.
